### Feature Strips

Applying a 5mm feature strip between the tiles in either a complementary or a contrast colour can create a classic yet stylish look

Slate Brown **3065**  
304mm x 609mm

## CUSTOMER GUARANTEE

Camaro Flooring Collection luxury vinyl tiles & planks have been developed to meet the highest technical specifications

Ideal for all areas of the home, the collection ensures high performance and optimum style. In addition, Camaro Flooring Collection is suitable for moderate commercial applications such as light traffic areas within hotels, conference rooms and small offices. Compared with many natural flooring options, Camaro Flooring Collection will, under normal conditions resist household stains, will not crack, chip or splinter. By following our simple maintenance instructions, your floor will look great for years to come.

From a collection of 20 colour and style options as well as the additional accessories, we are confident you will own a floor design to be proud of. The manufacturers of the Camaro Flooring Collection are confident that their high quality products will provide many years of valuable service. All products purchased from the range are guaranteed for 15 years against normal wear and tear in the recommended environment, provided that they have been fitted correctly and maintained in accordance with the manufacturer's instructions. In order to make a claim, customers must apply in writing, indicating where their flooring was purchased and provide satisfactory proof of purchase.

This guarantee only applies in the event of visible wearing out of the decorative pattern on the surface within 15 years of purchase, providing the flooring has been subject to normal usage in the recommended environment.

It does not cover general misuse and we suggest that adequate UV protection be taken against products being installed in direct sunlight as fading may occur. It is the manufacturer's recommendation that felt or teflon pads are used for protection under chairs and other furniture which will help to prevent scratching and marring of your floor's finish.

When moving any heavy objects please place a plywood panel over your vinyl floor.

In the event of the manufacturers of Camaro Flooring Collection accepting that a claim is valid under this guarantee, they will either repair the flooring or supply replacement flooring free of charge.

In the unlikely event of the flooring no longer being in stock, then flooring of equivalent quality will be provided.

### Recommended Use Areas

Residential – only suitable for use in interior of the home. Camaro Flooring Collection should not be used in constantly wet areas.

### Environmentally Certified Flooring

The Camaro product has achieved Ecospecifier's world leading 'Green Tag™' certification. Meaning you can be sure that you are purchasing a product that is independently certified as environmentally preferred. Green Tag™ is an independent third party, green product rating and

certification ecolabel, underpinned by rigorous scientific and Life Cycle Assessment (LCA) processes. In short, Green Tag™ helps the consumer identify products that are environmentally preferred, for use in their home via an independently audited and industry recognised whole of life cycle certification system. Ecospecifier's Green Tag™ is recognised by the Green Building Council of Australia (GBCA) and the New Zealand Green Building Council (NZGBC). To learn more visit [www.ecospecifier.com.au](http://www.ecospecifier.com.au), [www.gbca.org.au](http://www.gbca.org.au) or [www.nzgbc.org.nz](http://www.nzgbc.org.nz)

### Recofloor-Vinyl Take Back Scheme

Camaro LVT (Luxury Vinyl Tile) products are 100% recyclable and are recycled in Australia and New Zealand through the Recofloor – Vinyl Take Back Scheme.

The Recofloor scheme reduces the amount of vinyl flooring going to local landfill. Through the localised scheme, flooring off-cuts from the installation process are recycled back into new flooring. Uplifted or end of life material is down cycled into traffic calming products such as traffic cone and road barrier bases.

### Installation and Maintenance

Full instructions for both installation and maintenance are detailed on the leaflet that is contained in every box of Camaro Flooring Collection. If you require a copy of this leaflet or further guidance, please contact: Polyflor Australia on 1800 777 425 or Polyflor New Zealand on 0800 765 935

### Installation

Installation of Camaro Flooring Collection is relatively straightforward and should be carried out by a suitably qualified floor layer.

The tiles are installed as per AS/NZ1884 to a suitable surface using the environmentally friendly Kiesel brand 'Star100' adhesive'.

It is important to remember to 'condition' the tiles in the room where they are to be laid for 24 hours at a temperature between 18-24 degrees C, both prior to installation and after installation.

### Maintenance

Keeping your Camaro Flooring Collection tiles and planks clean and attractive is a simple task with PUR Surface Protection. Sweeping or vacuuming regularly removes dust and dirt from the floor. Simply wash with your normal mopping system and a neutral detergent cleaner. A polish is not required and could in fact make the floor slippery. Remember, regular and light cleaning is the best way to keep your Camaro Flooring Collection looking perfect.
