

## PROJECT BRIEF

### RPA HOSPITAL

Royal Prince Alfred Hospital (RPA) located in Sydney's inner west is one of the leading teaching hospitals in Australia. It completed Stage 2A of its redevelopment in March 2007. Polyflor supplied over 9000sqm of dry area flooring and 3000sqm of safety flooring in the hospital's new perioperative and endoscopy units and new laboratory precinct. The project director was Capital Insight, the architect was Silver Thomas Hanley Daryl Jackson, the builder was Richard Crookes Construction and the floor was installed by Arrow Corporate Flooring Systems.
