

PROJECT BRIEF

PROJECT BRIEF

PROJECT: Aldi
LOCATION: Darlinghurst, Sydney NSW
DESIGNER: Landini Design
INSTALLER: Trump Floorcoverings
PRODUCT: Expona Control – Dark Grey Concrete 1005

Aldi is a discount supermarket that offers Smarter Shopping, providing customers with incredibly high quality items at the lowest possible prices. Their first Australian store opened its doors in January 2001, now with over 300 stores operating across NSW, ACT, QLD and VIC. Due to the high volume of traffic, Aldi wanted to ensure the flooring in their newest store in Darlinghurst Sydney,

achieved a sustainable P3 slip resistance. The aesthetics of Polyflor's Expona Control range fit the brief so in order to meet the slip criteria, a custom designed version of the range was created specially for Aldi. The result was a flooring that is not only functional, but also easy to clean and maintain so the floors always look great.
