

PROJECT BRIEF

PROJECT: Logan Hospital
LOCATION: Cnr Armstrong & Loganlea Roads, Meadowbrook QLD
ARCHITECT: GHD
INSTALLER: Peter Kelly Flooring
PRODUCT: Pearlazzo PUR, Polyclad Plus, Polysafe Verona PUR & Polysafe Vogue Ultra PUR
KIESEL: Full Kiesel system

Logan Hospital is the major health centre for one of the fastest growing regions in the State and provides a range of speciality services for children and adults. During stage one of the hospital refurbishment, Polyflor's Pearlazzo PUR was used which is a hard wearing homogeneous flooring; along with its low maintenance properties, this range is ideal for hospitals.

In order to create floor-to-wall surface that provided an excellent barrier for dirt and infection, Polyclad Plus was selected which was developed specifically to meet the advanced requirements of today's medical industry. Polysafe Verona PUR and Polysafe Vogue Ultra PUR were used in areas requiring safety underfoot to avoid any slip risks whilst also being easy to maintain.
